## sandbOX writing

Print these pages on cardstock. Laminate, if desired. Hole punch the cards at the top left corner and place on a ring.

Let your student replicate the strokes and shapes on the cards with his finger in a small, shallow sandbox. He should begin his strokes at the starting point (indicated by the smiley face).

Once your student masters all the cards in this file, let him try writing the letters of the alphabet.

## HOVE Fun!
